ABSTRACTED-PUB-NO: JP2000083620A

BASIC-ABSTRACT:

NOVELTY - Health food for rapid degradation of alcohol comprises persimmon, turmeric, tannin, Panax notoginseng powder and periwinkle etc. (as alcohol degrading agents) mixed in foodstuffs. Nutrients such as aloe vera or spiral fresh water algae, sweetener, flavor, saline matter are also added. The food is made in the form of chocolate, sugar candy, chewing gum, oolong tea etc.

USE - For preventing liver damages produced due to intake of alcoholic drinks, and also for purifying the blood.

ADVANTAGE - When added to foodstuffs, the bitterness is masked and the taste of cocoa milk is obtained. Panax notoginseng powder when added to the candy prevents increase of sugar in the body after intake of candy. When added to wafers, noodles, it is palatable. The noodles have good nutritive value when mastigated with fresh spiral water algae and has many vitamins and amino acids. When added to tea an immediate effect is produced.
